## WHEN FREEDOM CALLS SOLUTIONZ ANSWERS: Helping Families Stay United During Wartime.

Throughout history, tours of duty in wartime have served to separate families. Freedom Calls Foundation, a public charity and a non-profit organization based out of New Jersey, was created in 2004 to bridge the communication gap between American soldiers in Iraq with their families back home.

Since its formation, Freedom Calls has been making dreams come true by deploying state-of-the-art technology and using satellite bandwidth to transform the experience of soldiers on extended deployments to war zones. From milestone family events such as births, graduations, birthdays, and weddings, to a family member's last goodbyes, soldiers are now being given the unique opportunity to "virtually" attend and participate in these once in a lifetime moments from the war zone.

It was even reported by one Army General that Freedom Calls' efforts represented the single greatest boost in morale for the troops.

After learning of Freedom Calls' noble efforts and undeniably positive response from both soldiers and families alike, Solutionz did not hesitate to further aid Freedom Calls' mission and goal of being able to provide state-of-the-art communications services to virtually every soldier in Iraq and Afghanistan free of charge.

On June 19, 2007, as a tribute to America's own Freedom Calls – The 4th of July – Solutionz sent a Polycom Videoconferencing Unit to Freedom Calls' Headquarters for deployment. Kathryn Hudacek, Director of Development for Freedom Calls, expressed Freedom Calls' appreciation, "Freedom Calls is thrilled to have the gift of the Polycom VTC equipment because it is an essential tool that we use to keep families connected. We

go forward with our mission of keeping military families in touch with deployed loved ones and depend on donations from good corporate citizens like Solutionz. We can't thank Solutionz enough."

*"Freedom Calls is thrilled to have the gift of the Polycom VTC equipment... We can't thank Solutionz enough."*

Solutionz fully supports Freedom Calls because we believe family is important and we hope you do as well. Unbelievably enough, if just 1 million Americans donate the cost of a family dinner on the Foundation's website [www.freedomcalls.org](http://www.freedomcalls.org), the foundation can provide state-of-the-art communication services to virtually every soldier, marine, and airmen in Iraq and Afghanistan free of charge!

Visit Freedom Calls' website today and help keep our American families united.
